

Product Specifications

Touchless Hand Sanitizer Dispenser

The 50053 Touchless Hand Sanitizer Dispenser offers a quick and convenient way to sanitize hands and avoid cross contamination. It has a large capacity of 33oz (1000ml) making it suitable to hold and dispense various disinfectant liquids such as hand sanitizer and soap. It is ideal for both daily and professional use and perfect for schools, businesses, hotels, clinics or other public places. The automatic sensor allows for touchless activation and provides a pre-measured amount of liquid to effectively clean hands. Save space by mounting it onto a wall or a stand. The dispenser is battery operated and can also be powered with USB and DC power adapters.

Model 50053

- Automatic dispenser is cartridge free and offers various refilling options
- Lower maintenance cost with economical refillable hand sanitizer or soap
- Contactless operation effective in preventing cross-infection
- Consistent, automatic and proportionate dispensing to guarantee sanitation
- Can be mounted on stands or placed on walls to save on space
- Battery operated (4 x AA Alkaline batteries); can also be used with USB and DC power adapters
- Convenient and promotes proper hygiene
